ROUND SERIES

Similar to the Santa Fe Series, this series use of smooth, round bars provides a crisp, less rustic appearance. The round bars are also easier to install in a drilled round hole. If desired, the balusters may easily be used without shoes creating a clean, striking effect.

RIBBON SERIES

Similar to the Twist and Basket Series, the larger ribbon twist in this popular series creates a lighter, slightly softer effect. The flowing single and double ribbon profiles may be enhanced by adding knuckles to either side of the ribbon pattern. These profiles are compatible with the Versatile Series and may also be accented with profiles from the Scroll Series.
